- ✦ **Dynamic Turbulation**
vibrates surface
- ✦ **Glides over** all bed surfaces
without sucking in loose
fabrics
- ✦ **Stands up fibers** so they
feel freshly laundered
- ✦ **Draws up fine particles**
through the sheets
- ✦ **Spray system** for cleaning
solution or aromatherapy
scent

Most people don't have the time or the energy to strip their bed and wash their sheets, pillow cases, blankets, and comforters as often as they should to achieve optimum comfort and sanitation.

That is why the Sheet Sweet™ was developed. This unique appliance will allow you to refresh, deodorize, sanitize and eliminate odors in your bedding. It will also vacuum human and pet hair, dead human skin, dust mites, and food particles in between your scheduled washings.

Saves Time, Saves Money, and Saves Water.

No vacuum in the world today has been able to vacuum loose sheets, pillow cases, blankets and comforters until now. Our patented system recirculates air flow – the exhaust air is impinged upon induction in a very specific way.

Great for home use, and commercial in for hospitals and hotels.
